# Life Test L-02/03

## ENVIRONMENTAL SIMULATION

# // High Voltage Test Benches

**With our team, we can realize complex HV and LV test benches for automotive Life Test requirements.**

### Equipment

Up to 15.500l of chamber volume

### Climatic environment

-70°C to +200°C

Up to 99% r.H.

### Current

Over 2.000A

### Voltage

Up to 600V

**We can provide the planning, programming and project management for your application.**

## STANDARDS

MBN LV 124-2  
VW 80000  
GS 95024-3-1

Additionally we work with numerous customer specific standards from the aerospace and defense sectors.
